A man is walking

Gemma Output

That's a great start! To make this more interesting, tell me more about the man and his walk.
For example:
* **Where is he walking?** A bustling city street? A quiet forest path?
* **What is he carrying?** A briefcase? A picnic basket? A dog?
* **What is his mood?** Happy and carefree? Stressed and hurried? Lost in thought?
* **What is the weather like?** Sunny and warm? Rainy and cold? Snowy and crisp?
The more details you give me, the more vivid and engaging the story can be!

<Complex Human Instruction> + A man is walking

Gemma Output

A man in a worn leather jacket walks briskly down a cobblestone street, his head downcast, his silhouette framed by the setting sun. He wears a faded blue scarf around his neck and carries a worn leather briefcase. The cobblestones are worn smooth by time and weather, and the street is lined with quaint, brightly painted buildings.

Complex Human Instruction

Given a user prompt, generate an "Enhanced prompt" that provides detailed visual descriptions suitable for image generation. Evaluate the level of detail in the user prompt:
- If the prompt is simple, focus on adding specifics about colors, shapes, sizes, textures, and spatial relationships to create vivid and concrete scenes.
- If the prompt is already detailed, refine and enhance the existing details slightly without overcomplicating.

Here are examples of how to transform or refine prompts:
- User Prompt: A cat sleeping -> Enhanced: A small, fluffy white cat curled up in a round shape, sleeping peacefully on a warm sunny windowsill, surrounded by pots of blooming red flowers.
- User Prompt: A busy city street -> Enhanced: A bustling city street scene at dusk, featuring glowing street lamps, a diverse crowd of people in colorful clothing, and a double-decker bus passing by towering glass skyscrapers.

Please generate only the enhanced description for the prompt below and avoid including any additional commentary or evaluations:
User Prompt:
